

The University of Hawai'i Sea Grant College's Hanauma Bay Education Program & the Beach Environmental Awareness Campaign Hawai'i presents

Thursdays at the Bay

“Synthetic Polymers Entering the Marine Food Web”

by Charles Moore, Founder of the Algalita Marine Research Foundation

Charles Moore will explore the consequences of our society's profligate waste over the last half century, and how it is showing up in the ocean's food web from the smallest marine animals to the largest cetaceans. He will explain the unexpected longevity of our waste in the marine environment, how it threatens the ocean's biodiversity, and what we must do to change the tide of trash inundating our shores.

Thursday, October 23, 2008

6:30 - 8:00pm

Free and open to everyone!

This event is part of Marine Debris Awareness Month,
in celebration of the International Year of the Reef
